

PAUL T. SUMMERS

paul.summers@tufts.edu ◇ www.paultsummers.com

EDUCATION

Stanford University, Stanford California

PhD in Geophysics

September 2018 - June 2024

GPA: 3.94

Stanford University, Stanford California

B.S in Physics, M.S. in Geophysics

September 2010 - June 2014

GPA: 3.81, 3.89

RESEARCH AND PROFESSIONAL EXPERIENCE

Tufts University & Rutgers University & Georgia Institute of Technology

Postdoctoral Researcher

August 2024 - Present

Atlanta, Georgia

Funded through Tufts and Rutgers, physically based at Georgia Tech.

Numerical modeling of ice mélange and interactions with ocean currents and glacial dynamics.

Extending existing numerical modeling packages MITgcm and GLACIOME1D in fortran, python.

Stanford University Department of Geophysics

PhD Candidate

September 2018 - June 2024

Stanford, CA

Physical processes controlling Antarctic Shear margin locations, applied to Thwaites Glacier and other ice streams.

Thermomechanical ice flow modeling and ice sounding radar processing techniques focused on Antarctic shear margins.

Dropbox Inc.

Software Developer

August 2014 - July 2018

San Francisco, CA

Designed, built and tested custom APEX solutions within Salesforce CRM to meet business requirements.

Stanford University Department of Geophysics

Researcher, M.S. Candidate

June 2013 - June 2014

Stanford, CA

Investigated mechanics of pre-explosive harmonic tremor in the 2009 Redoubt Volcano eruption.

AWARDS

Department Citizenship Award Stanford Department of Geophysics	June 2024
ARCS Scholar Northern California Chapter of the Achievement Rewards for College Scientists, 2x recipient for total of \$101,000	2022 - 2024
Best Graduate Poster <i>Research Review Symposium</i> Radar Attenuation Signature of Temperate Antarctic Shear Margins	May 2023 <i>Stanford Doerr School of Sustainability</i>
Stanford Earth Graduate Student Research Grant Grant of \$575 for 2021-22 Antarctic field work.	Sept 2021

TEACHING AND MENTORING

Mentor for Undergraduate Research Mentor to multiple undergraduate researchers at Georgia Tech and Tufts University. Projects on idealized ice sheet modeling, mélange modeling, and ocean modeling. One student presenting research at AGU 2025.	September 2024 - Current
Guest Lecturer Lead guest lectures at Tufts University on Glacial Flow for a Cryosphere course and at Georgia Tech on Ice Streams for a Glaciology course.	September 2024 - December 2024
JIRP Academic Faculty <i>Juneau Icefield Research Program</i> Lead lectures, discussions, mentored student lead projects, and in-field instruction for 32 Undergraduate and graduate students	July 2024 - 2025
Mentor Graduate Student Peer Mentor for Stanford 1st year PhD students (1 hours per week)	October 2019 - June 2024
Tutor Graduate Student 1:1 tutor for masters students in upper level math and engineering courses (2 hours per week)	October 2022 - June 2023
SESUR Program Assistant <i>Stanford Doerr School of Sustainability</i> Coordinate Stanford Earth Summer Undergraduate Research Program including field trips, weekly seminars, various social events. (10 hours per week)	April 2022 - October 2022
Mentor for Undergraduate Research <i>Stanford Department of Geophysics</i> Mentored Stanford undergraduates modeling various glaciology projects. One student presented work at AGU 2022. (3 hours per week)	June 2021 - August 2022
Teaching Assistant <i>Stanford University Department of Geophysics</i> Undergraduate geophysical methods course for imaging and characterizing groundwater systems. Partnership with community decision makers to recharge ground water (12 hours per week)	April 2022 - June 2022
Teaching Assistant <i>Stanford University Department of Geophysics</i> Undergraduate and Graduate course. Continuum mechanics applied to ice sheets and glaciers, water waves and tsunamis, and volcanoes. (6 hours per week)	January 2019 - April 2019

PROFESSIONAL DEVELOPMENT

CIRTL@Stanford Teaching Certificate Program <i>Associate Level</i> Center for the Integration of Research, Teaching, and Learning (CIRTL) Network.	August 2023 <i>Stanford, CA</i>
Outdoor Leadership Apprenticeship <i>Apprentice</i> Apprenticeship in Outdoor Leadership, focused on rock climbing skills through experiential learning. Co-instructed 2x week long, field-based traditional rock climbing courses for 8 students in Joshua Tree National Park, as well as multiple vertical self-rescue clinics on campus.	March 2023 - June 2024 <i>Stanford, CA</i>
Preparing Future Professors <i>Mentee</i> 10 week shadowing program gave the opportunity to experience faculty life first-hand at a comprehensive, teaching-focused university or community college.	November 2022 - Jan 2023 <i>West Valley College, Saratoga, CA</i>

Center for Teaching and Learning Course Design Institute

June 2022 - July 2022

*Student**Stanford, CA*

6 week summer course on drafting curricula using evidence-based frameworks. Developed framework of glacial dynamics course focused on mass balance methods.

FIELD EXPERIENCE**Juneau Icefield Research Program**

July 2024-2025

*Academic Faculty**Taku Glacier, Juneau Icefield*

Led week long research projects with 6-8 students. Worked with RTK GPS survey, tiltmeters, passive seismometers. Lead field trip based lectures and activities.

Thwaites Interdisciplinary Margin Evolution

Oct 2023 - Feb 2024

*Field Scientist**Thwaites Glacier, West Antarctica*

Wide offset (up to 4 km) bistatic, polarimetric radar survey using wireless and fiber optic synchronization techniques using modified pRES radar. Assisted with 2-D and 3-D active seismic survey. Surveyed and Deployed seismic nodes with GPS, assisted in active seismic explosive sources. 7 weeks in the deep field in a team of 16 with 2 guides.

Near-Surface Geophysics: Imaging Groundwater Systems

May 2022

*Teaching Assistant**Coyote Valley, California*

Co-lead a class of 20 undergraduates to completed a 100 m seismic (hammer and betsy gun), 200 m electrical resistivity tomography, and towed transient electromagnetic survey imaging ground water connectivity in the top 40 meters of the subsurface. Worked with community decision makers to inform development of newly acquired public lands.

Thwaites Interdisciplinary Margin Evolution

Oct 2021 - Jan 2022

*Field Scientist**Thwaites Glacier, West Antarctica*

Completed a 5 km offset bistatic, polarimetric radar survey. Deployed and recovered seismic nodes in an active seismic survey using hammer source. Recovered passive seismic nodes and GPS stations. 3 weeks in the deep field in a team of 4 scientists and 2 guides.

TECHNICAL STRENGTHS**Computer Languages**

Python, MATLAB, FORTRAN, Bash, JAVA, SQL, APEX, SOQL, Javascript

ToolsHPC, Git, MITgcm, vim, L^AT_EX, Sublime IDE**Field Skills**

ApRES, Seismic Surveying (Ice and Land), ERT, GPS, Digging in Snow, Roped Travel, Snowmobiling, Crevasse Rescue, Vertical Rock Rescue

First Aid

Red Cross AED, CPR, Basic First Aid Certified (lapsed 2024), WFA (lapsed 2020)

OPEN SOURCE CODE REPOSITORIES**Zenodo**

Github<https://github.com/somonesummers>

Ongoing research and personal projects

<https://github.com/somonesummers/demoMITgcm>

Idealizde demo for running MITgcm and iceberg2 package

COMMUNITY BUILDING**Graduate Student Advisory Council Member**

2019 - 2020

Liaison between graduate students in the Stanford School of Earth and department and school level administration. (1 hour per week)

School of Earth Social Czar

2018 - 2019

Host weekly social events for the Stanford School of Earth. (2 hours per week)

CONFERENCE ABSTRACTS**WAIS 2025**

Sept, 2025
